**Subject:** RE: Your PRA request

Thanks Sandy, just left you a voicemail. We are running these additional terms. We are running into some technological challenges with the search. The older emails are archived meaning that it is taking us longer to get their full text and any attachments they may have. Based on this, we need to invoke our right to additional time under 1 VSA 318(a)(5). I will be back in touch by April 2. Thanks,  
Sarah

**Subject:** RE: Your PRA request

Thank you Sarah.  
Without limiting CLF's request in any way, please add:  
"cost allocation"  
"NESCOE"  
"greenhouse gas quantification" including "GHG quantification"  
"non-transmission alternatives" including NTAs  
Thank you,  
Sandy

**Subject:** RE: Your PRA request

Great, here's what I've already directed everyone to search by, just so you know. I'll have a better sense of how many documents we are looking at using these terms Monday and will be in touch then! Thanks.

"electric transmission"  
"transmission infrastructure"  
"pipeline capacity" or "natural gas dependency"  
"hydropower" - specially, hydropower from Canada  
"hydroelectricity" - again, specifically hydroelectricity from Canada

**Subject:** RE: Your PRA request

Thank you Sarah.

Yes, that makes sense.

I have separately been in touch with the PSB and withdrawn my request for records from them, noting that CLF will resubmit at a later date if needed after we have a chance to review the records from the DPS.

I have heard from PSD that it will be providing records by 3/27.

I am not withdrawing the request to the Governor's office and will try to get you some suggestions for search terms.

I will be out of town next week, but available on my cell phone, 802-249-2607, which is the number you have been using to reach me.

Thank you,

Sandy

**Subject:** Your PRA request

Hi Sandy, left you a voicemail just now. Just trying to clarify your PRA request. The Governor's Office has received your request directed to the Governor and we are processing it. I will be in touch further on Monday. I understand the Department of Public Service has agreed to work with you too, and to be further in touch March 27. My understanding is the majority of potentially responsive records are likely to be housed at the Department.

As a practical matter, it is likely most cost-effective to have the DPS continue to seek information as worked out in your agreement before CLF seeks records directly of the other agencies. To the extent you wish to pursue more records following their response (potentially resulting in additional costs), it likely makes sense to submit requests addressed to ACCD, AoA, ANR, and potentially the PSB at that time. Does this work for you?

Let me know your thoughts. Thanks and have a great weekend,  
Sarah

Sarah London
