

Subject: RE: AEM Amendment With NEDA Amendments VT (5.0) (2).DOCX

Joe:

We agree, paragraph 5 / point 5 can be deleted.

Point 11, d(1): AEM proposes the following additional language: “parts used for warranty and recall obligations must be ordered from the supplier in the most freight and handling efficient manner offered by the supplier”.

Point 12, d(2): AEM opposes this paragraph

Thanks –
