A new way for Vermonters to heat *and* cool affordably is finally here.

Lease for as little as
\$40 a month
First 6 months **FREE**
from Efficiency Vermont

A heat pump heating and cooling system uses up to 50% less energy than traditional oil or propane, which translates to lower energy bills.

With the click of a button, you also have the benefit of air conditioning—all in one efficient system that keeps you comfortable year round.
