So they strike the language to repeal the R&D list, they strike the R&D increase, they are screwing around with VEGI to make the changes less helpful, they strike tourism funding formula, they ADD a tax haven piece. This is FAST becoming other than an "economic development bill."

Turns out both Finance and W&M want the list of R&D claimants NOW (even though a repeal of the provision is in play). So we will be releasing this afternoon. Reminder that all listees have been informed that they will be listed!

We can send you the list when we release.
