

write to urge you to vote against this heinous bill. There is no more vulnerable member of our society than the unborn, to remove any right they have to live and chose the life they might lead is an unimaginable atrocity. Vote no!!!

I don't write this plea in judgement of those who've had or who consider an abortion. When I was a teenager I took my girlfriend to a clinic to terminate her pregnancy. Afterwards, I was so riddled with guilt that I struggled with suicidal tendencies. I've faced what I've done, and I've come out the other side. Don't further empower others to make the same mistake!

It's unimaginable to consider what occurs during a late term abortion procedure. The body of a, if this bill passes, viable unborn human is torn limb from limb only to be discarded or recycled like unwanted leftovers!

Please vote no!

Blessings!
