**Subject:** Drought- Briefing

Deb- George, Bryan and I met about the drought this morning. Concerns on the ground are increasing and the State needs to provide some guidance to impacted communities. As you know, DEMHS is also involved. The Governor's Office has been monitoring the situation as well and would like to be kept informed.

I asked George and Bryan to pull together a briefing document for you to review and use to brief the Governor's Office. There are a set of decisions to make this week. George and I would like to brief you on these. Times that might work are today at 4:30 or tomorrow at 8am. I am asking Renita to work with Penny to find us some time.

Below is a sketch of the memo that will be coming. I wanted to give you a head up so that you were prepared for it. Please let me or George know if you have any immediate questions. Thanks. – AS
