Anya Rader-Wallack, Chair  
Green Mountain Care Board  
89 Main Street  
Montpelier, VT 05620-3101

Dear Anya,

First, let me congratulate you on your appointment as the Chair of the Green Mountain Care Board. Vermonters are lucky to have you at the helm of this important project. It is a monumental undertaking and I wish you the very best.

This September, I had the opportunity to visit Taiwan for a government – business interaction as a member of a delegation that included seven Secretaries of State from around the country. It was a fascinating trip that included meeting with several Taiwanese Dignitaries’.

I’ve enclosed several booklets we received when we met with the Taiwan Department of Health Deputy Minister. One of the booklets describes Taiwan’s Healthcare system which appears to be a hybrid system that I thought you might find interesting.

I’ve included the booklets and business cards of the people we met with while there. Please feel free to contact me if you have any questions. I hope you find these items useful in your work.

Sincerely,

James C. Condos  
Secretary of State
