Dear Chair Jo Grad:

Thank you for your efforts also to make this a strong bill. This is a big victory for all Vermonters and one I am very proud of.

I appreciate your note and only wish you the very best. Please understand, I never set out to be a whistleblower but I can tell you it affects every aspect of your life: physical, emotional, financial, friends and family to name a few.

I have also been fighting not only for my adopted State of Vermont but for our country which is why I am such a proponent for the empowerment of woman which is necessary to put the Old Boys Club, the same club that I feel has destroyed our once great country - out of business.

My profound thanks to you for sponsoring this bill and for all of your diligence in getting it done in the House Judiciary Committee.

My best always,

Thomas
