FYI – **please do not distribute** but just wanted everyone aware of this.

This memo from leg counsel questions our analysis of the issues in the bill. However it also points out solutions that make their language clearer (which more or less makes our point that original language is flawed...).

This is what people who want to override will rely on to make their case there are no issues, despite analysis from Department, Board, utilities and others that agree with our reasoning and concerns.

Thanks,  
Darren

Dear Senators,

Due to the number of inquiries concerning S.230 I have asked Mike O'Grady and Aaron Adler to provide me with a memo outlining the specific issues raised by the Governor in his veto message. I hope this will be helpful for our deliberations tomorrow. As I previously stated, it is my intention to gavel in then move to recess in order to caucus. I will provide more information if things change.

John
