

Ms. Diehl,

Please enter my testimony against H566, H567, and H568. As a life long proud Vermonter I never thought I would need to defend our rights for self defense. I grew up with guns in my house. I learned to shoot at 5 years old and was putting food on our family's table from the age of 7. When our country called, I used some of those learned skills in combat. I have a right given by God and guaranteed by our Constitution to protect myself, my home, and my family. H566, H567, and H568 will do nothing to prevent gun crime and will leave many people defenseless. I am in firm opposition to these unconstitutional proposals. They directly violate Article 16 of the Vermont Constitution and Sportsmen's Bill of Rights.
We cant allow one city to disassemble our constitution.
