Disability HHs with medical expense deduction:	3,366 (17% of disability HHs)
Average monthly benefit per HH:	\$439
Average monthly benefit per working HH:	\$619
Average monthly benefit per disability HH:	\$381
Average benefit per HH that included children aged 0-17:	\$739
Average benefit per working HH that included children aged 0-17:	\$764
Average monthly benefit per older Vermonter HH:	\$331
Average monthly benefit per older Vermonter living alone:	\$301
Total HHs receiving benefit of \$19 or less: *	437 (1% of all HHs)
Disability HHs receiving benefit of \$19 or less:	125 (1% of disability HHs)
Older Vermonter HHs receiving benefit of \$19 or less:	48 (0.3% of older Vermonter HHs)
Total HHs receiving benefit of \$25 or more:	40,071 (99% of all HHs)
Disability HHs receiving benefit of \$25 or more:	19,120 (99% of disability HHs)
Older Vermonter HHs receiving benefit of \$25 or more:	14,810 (99.6% of older Vermonter HHs)
Total HHs receiving benefit of \$50 or more:	40,054 (99% of all HHs)
Disability HHs receiving benefit of \$50 or more:	19,119 (99% of disability HHs)
Older Vermonter HHs receiving benefit of \$50 or more:	14,805 (99.6% of older Vermonter HH's)

*This included 239 HHs with zero food benefit, such as HHs categorically eligible due to receipt of SSI or VT EITC benefits but with incomes too high to qualify them for a 3SVT food benefit amount. These zero-benefit HHs were included in calculating the average monthly benefit amounts. Enrollment in 3SVT may qualify them for other types of services, such as Lifeline phone subsidies.
