5. **Reports:**

- a. Chris Winters, OPR, Director, attended the meeting to discuss the proposed statutory changes affecting the Board, which are included in the OPR Office Bill. Proposed changes include some outdated references in Title 18 and Title 26 to eliminate conflicting statutes. Ms. Eaton or another member available will provide testimony at the legislature.
- b. Madeleine Mongan, Jonathan Weker, MD; Richard Rubin, MD; and Kelly Stoddard attended the meeting to discuss the new DEA regulation change regarding the 90-day (do not fill until) rule for Schedule II drugs, Emergency Contraception, and immunizations with collaborative practice. They asked the Board to consider allowing prescriptions for psychiatric drugs (Schedule II's) for up to 90 days. Doctors Weker and Rubin indicated that their patients being treated with ADHD and other conditions would greatly benefit. It would cut down on costs, eliminate unnecessary appointments, and maintain patients' clinical treatment. They provided written statements as well. The Board expressed concerns about drugs other than stimulants that contain opiates, which are also Schedule II drugs. The group was asked to submit draft language regarding a proposed rule change for consideration and to provide testimony if needed. Ms. Mongan's name will be added to the list of interested parties for the upcoming proposed rules hearing when scheduled.
- c. Karen McBride, Fletcher Allen Health Care, attended the meeting to discuss a pharmacist's ability to give vaccinations. She said they are setting up a part-time clinic for immunizations at FAHC. The definition in the scope of practice allows a pharmacist to give vaccinations in collaboration with a physician with appropriate training. Ms. McBride said that the pharmacist who will provide the (shingles) vaccination has received training from the APHA. The rule revision will explain the requirements in greater detail.
- d. Robert Hamilton, Associate Dean, Albany College of Pharmacy, attended the meeting to discuss the proposed location for the pharmacy and asked whether it needed to be licensed as a pharmacy. The Board noted that the proposed location would be fine and that the pharmacy had to be licensed. He said the college would also offer continuing education programs in Vermont.
