Subject: Here's the lowdown for tomorrow at 11 at the DMV:

Speakers are Gov, Lt. Gov, Sen. Mazza, Rep. Brennan, Parker Riehle or someone from the Ski Areas (who have been selling plates), Jim Harrison or someone from the Grocers Association (who have been selling plates). That MIGHT be everyone ... not quite finalized.

I am hoping your boss will attend and speak. Let me know!

Barre Fire Department plans to buy plates for all their trucks, so TOMORROW the Gov will buy the 25,000 plate, officially present it to Capt. Keith Cushing from Barre, and they will put the plate on a new truck parked in front of DMV (spaces already reserved by Montpelier Police Dept). Also attending will be Montpelier Fire Department, and the Governor will use this presentation as a symbolic thanks to all the Fire, Police and EMT (and any other emergency responders) who helped during the spring flooding and Irene.

Barre was most active during spring flooding, but donated equipment to Northfield and other nearby communities during Irene.

In addition, Barre Chief Tim Bombardier will announce that his fire truck will use the plate for a while, but share it with Montpelier and other smaller departments before eventually donating it framed and engraved to the Fire Academy for permanent display.

Gov will note that St. Johnsbury Fire Department has already outfitted their fire trucks with Strong plates. We'll let other departments know how to bulk purchase for their emergency equipment.

Subject: DMV press conference?

Hey Sue –

Any update on the potential press event tomorrow at DMV for the sale of the 25,000th VT Strong plate? (Who will be the lucky customer?)

Hi Sue --

Sure, keep me posted. That time slot is currently open and we'll hold it until I hear more from you. Thanks!

Subject: VTStrong plate press conference

Next Thursday at 11 a.m. the Governor will hold a press conference at the DVM to sell the 25,000th license plate ... halfway to the 50,000 we're hoping for. I don't know how much media attention it will garner, but we hope to just gin up some enthusiasm for the plates!

We would love to have the lieutenant governor there, with a speaking role. I will forward details when I have them (hopefully a general idea by today's end, but a more complete picture on Tuesday).

Sue
