

Email received 3/20/15

I writing in support of a 10 year planning interval. As a former selectboard member (12 years), I know how time consuming it is to develop and implement a town plan. I have seen first hand how the demands of writing a new plan detracts from implements the provisions (surveys, grants, etc.) of the current plan. It is getting increasing harder to get residents to serve on boards with extensive agendas. I hope you will support a 10 year planning interval.

Thank you,

Bob Bancroft (Chittenden 8-3)
