Liz,

We will talk later this am, I have had great conversations with Tom and Betsy this morning, to continue the spirit of collaboration, we need to take more of an “we have these resources to augment the great work we are doing with Quebec. For example, this meeting today organized by the Lake Champlain Chamber helps advance our great working relationship with Quebec.....” and then go on to acknowledge “the work the Lake Chamber will be doing, the great work the Vermont Chamber and ACCD are doing....” Versus announcing this as a new initiative the Lake Chamber is doing and that nothing else is happening. VERY important to set the tone of collaboration with this press release and the Govs talking points.

Pat

Here is a starting point. I would like to add some existing programs that we have with Quebec – like the IJC and also some companies that do biz on both sides of the border, like Revision (who I am sure will be thrilled with a mention) – to show that we aren’t starting from ground zero. Also wonder if we need to better explain that this is a statewide effort?

I will get the Gov’s remarks to you in the AM following our call w/ the Quebec team.
