

Ms Tucker:

I am submitting my written position on these two mentioned bills; H 57;and S 25.

In a civilized predominantly Christian society the details outlined in the texts of these pieces has no place period. It is appalling that seemingly sensible minds would be so inclined to even introduce such a thing for consideration.

From the beginning, Judeo-Christian principles have been our rule and guide in everything we do in the broad spectrum of society called life.

These proposals are clearly outside of those parameters, and I urge each and every committee person who has responsibility in the outcomes of these bills to unequivocally vote "NO".

Thank You

James and Andrea Hall
