

Hello, I am opposed to the passing off bill h.57! This bill is an outrage to all humans. Every woman has a right and responsibility whether or not to get pregnant. There is only one day of her cycle that she can get pregnant. She has the right and Responsibility to know when that is, and then decide whether or not to engage in intercourse and take a chance to become pregnant or not. That is where her rights should end. It is then her Responsibility to care for that child and not to commit murder.

What about the mans rights? He is just as responsible. But where are his rights. As it is a man's rights are denied. No matter how much a man wants that baby, he has his right taken away. Where is his choice?

Please do not pass this bill!

Thank you,
Ed Dematties
