Questions -

1. The Military lives shown on the Vermont coverage chart – Does this line include people who use the VA? I can confirm that this number includes just CHAMPUS/TRICARE, but not VA usage.
2. Association lives shown in 2014 & 2015 – Is this the VEHI/education employees? Yes. There was a technical reporting change & these lives moved into the self-funded bucket in 2016. Note that they weren't officially designated to be a TPA until Jan 1, 2018.
3. What percentage of the self-insured market has claims information currently included in VHCURES? About 50% of the self-funded market (based on covered lives, not proportion of employers) appears to be reporting to VHCURES today.
